

## **Genesis 5 genealogy, Sumerian King List and Babylonian number system**

**Base 60 number system notes “five years” as “sixty months”;** thus, the ages are generally multiples of five plus an additional seven

**Total days from creation to end of Flood:**

1643 years times 365 days = 599,695, or 60x10,000

**Total ages of the ten “founding fathers:**

8219 + 7 = 2,999,935 days or 60x50,000

**Sumerian King List (SKL) 7<sup>th</sup> entry is Enmeduranki,** who ascends to the sky to meet with the sun god, Shamash.

**In Genesis 5.22-24, the 7<sup>th</sup> entry is Enoch,** who ascends to meet with God after living 365 years (= a solar year of years)
